Geometric Probability - Please put these on your even graph paper. Key

Final the probability of himing the shaded area to length of the terpet with a medically thrown shat that him the terpet. All

credit, you NAVET SEOW the formulas and calculations of the shaded area or length, the trend area or length, and then a reduced

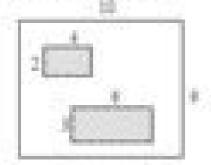

Geometric Probability - Please put these on your own graph paper.

Final the probability of latting the shaded area or length of the target with a randomly thrown dury that late the target. All measurements are in continuous. The formula is Geometric Probability =

| Should irrest probability | Should be probability | Should

credit, you SUST SHOW the formulas and calculations of the shaded laws or length, the tend area or length, and then a reduced fection.

7. If a point falls on the personner. relat is the probability of its landing on the hypotensian of the

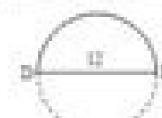

2 sectings

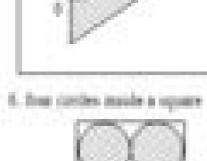

S. conta-divided into-

 If a point falls on the outer edge of the X-trip ball of the pubs, continued by a solid line below), what is the probability it is on the crust."

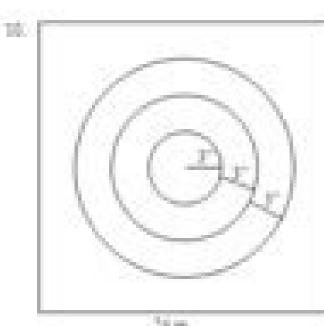

3. right triangle is a restaugle

35

On: AC , what is the probability of bosong a bean bag at random and landing within I can of the

poor 81

2016 Terrer Questions are on lasts. If a randomly threver durt lands within the aguste backboard, what in the probabilet:

- a, that it will had within the simplest statle?
- It that it will had comide the largest single?
- s, that it will land between the largest and onullest content."

Does the data below suggest a relationship between gender and vegetarianism?
 Justify your reasoning.

	Vegetarian	Not a Vegetarian	Total	
Male	14	36	50	
Female	15	35	50	
Total	29	71	100	

ges because its cutogonizing whether they are femals/male and vegitarian/not vegitarian

Does the data below suggest a relationship between gender and vegetarianism? Justify your reasoning.

	Vegetarian	Not a Vegetarian	Total
Male	38	12	50
Female	17	33	50
Total	55	45	100

ges because it is still asking enterior and your are negitarian and registarian and female/male.

Name

Date

Two Way Tables - Independent Practice Worksheet

Complete all the problems.

After a series of matches between a school's teams and their rivals, the school secretary analyzed the relationship of the number of wins and matches played. The results are summarized in a two way table below.

Sport	Boys Wins	Girls Wins
Volleyball	23	18
Cricket	40	10
Soccer	15	25

- 1. How many total wins did the school's Volleyball teams register?
- 2. How many more wins did the boys' teams have than the girls' teams?

The data is summarized in a two-way table for the number of boys and girls that regularly drink water, lemonade, or soda at lunch.

	Boys	Girls	Total
Water	45	32	77
Soda	50	38	88
Lemonade	42	32	74

- 3. What is the percentage of boys that regularly drink water?
- 4. What is the percentage of girls that regularly drink water?
- 5. What is the percentage of girls that regularly drink soda?
- 6. What is the percentage of boys that regularly drink soda?
- 7. What is the percentage of the students that regularly drink water?
- 8. What is the percentage of the students that regularly drink soda?

Algebra 1. Two-Way Engineery Tables

 The students in a sepside school are to have petra authoring assemblif they cannot pain. The table behalf. gives information about the automatin grades 7, 8 and 9.

	Can swith	Carright	Tieter
Greate 7	696	- 5	
Greate B	398	10	
Drode F	370		
Total	and the second		

Can palm. Connati naim.	Total
Grade 7	
Crede 6	
Criste 9	
Total	

- Complete the table from many students next saferining lessons?
- s. How many displants are there in P. grade?
- d. How many of the T[®] grade dudwrite connot swint?
- How many students in grades 7 and 6 can belon?
- Now many displants are there altogether in grades 7, 6, and 67
- Create a two way relative frequency taken for the above data.
- What is the relative frequency of students who are in 8° greats and carnot paint?
- What percentage of 9" grade students can palled What parametage of baudonts connect series?
- What percentage of students are 6° greaters?
- A principal of a lottool with 484 students called administration about how many of the students were glasses.

	Anweys ween's glosses	Sometime week	Sever wears glasses	Total
***	- 4		588	
Dry.		- 10	544	
Total	_		1	_

- 4. Committee the reper
- How many boys sometimes wastr glasses? has many disdorts user glasses some of the time?
- d. How many students never your glasses? Are there more buys or gifts in the schoot?
- Create a Geo-etty resident frequency taken for the stone data.
- What is the relative frequency of boys who corrections was glossed
- What percentage of girls never wear placeas?
- What percentage of ptubints are been? What percentage of students starys seon passes?
